Obtain Documentation of Your Injury or Illness from Your Doctor

When pursuing a workers' compensation claim in New York, obtaining detailed documentation from your doctor is a crucial step. Medical records act as the foundation of your claim, providing evidence of the extent and origin of your injury or illness. These documents should include information about the diagnosis, treatment plans, and any limitations stemming from the workplace incident. It's important to ensure that these records are thorough and clearly link your condition to your job duties or workplace accident. This not only facilitates a smoother claims process but also maximizes the likelihood of receiving appropriate benefits.
